Check Bihar TET Selection procedure for all offers and get notice to participate. Each RPCAU candidate is selected through written exam, merit list, interview, document verification (DV) and certificate verification (CV) and final selection. All eligible candidates who apply with the required fee and whose questions are received in time will be called for the online test / written exam, which will include the following. The selection of candidates is carried out on the basis of the exam and the online interview. The Bihar TET Online Test/Examination written will be conducted in Languages based on English or State. Self-mock Exam Exam Test Practice Testing Practice Testing Practice which should conduct the paper pen test yourself to find errors and doubtful questions. find answers to those questions you need to know before the test. is one of the revisions of all syllabuses during document resolution do not use the solution to complete the examination and correct negative and positive signs. Through the mock test, candidates can use the charts of the model of the previous year, the Institute wise sample documents, syllabus wise practice documents to conduct self-examination. Syllabus Reference Each candidate must complete all the chapters prescribed by the exam organizer before the exam forthe confusiontime to receive questions. Most candidates do not complete the program and find unknown questions to take as out of quota at the time of the exam. Therefore, candidates who are invited to avoid confusion and complete preparation before the date of the exam. At first, candidates who are taken the examination authority prescribe the syllabus program and examination for comfortable preparation. Each candidate has many types to select interesting chapters to start preparation. Do not start with new topics At the time of the exam, students who should participate in the studied questions and meet the known answers. Avoid starting with new topics because the duration of the exam will be lost and one disappointed from initially on. In each topic, FAQ questions are listed in most guide candidates can easily notice those questions for further reference. Time is one of the most significant for each examiner at the time of the exam. Applicants who know answers to all questions but less time cause unattended questions. Thus, candidates who are invited to get more practice leading auto-test and fixing time for each question to save the waste of time and use to increase the level of demand in question. Other things Preparation is one of the main activities for each examination to obtain qualified declared by the examination authority. where there are many preparation styles is used for each candidate. On the basis of the prescribed program and the examination model, the preparation is changed. We have given some of the steps in the following article, candidates can use those details and get benefits from us. Try to avoid errors Because every wrong question has negative signs is evaluated and less by total signs. Errors are the main reason for disqualified to benefit from further examinationcandidates are tempted to reduce errors in all sections such as mathematics, physics, formulas and equations of subjects of chemistry. So. .are trying to ignore the correction made by evaluating the staff of the answer sheet. Day before an exam The exam will lead soon, all candidates will move on the date of the exam. So, candidates are a free, less tension and get more mock proof themselves. Before one day of the exam, students taking a good sleep to look for a heavy input for tomorrow's exam. Minimum 6 hours must sleep before participating in the exam, this will increase positive thoughts, respond accuracy and speed for the exam.
